

REMARKS/ARGUMENTS

This application claims priority to PCT US 2004/011816, filed April 16, 2004, which claims priority to U.S. Provisional Patent Application 60/463,927, filed on 4/17/03. The priority was properly claimed upon filing, and noted in the PTO bibliographic data sheet of March 3, 2005. Although the first page of the specification contained an erroneous priority claim, the priority claim was also correct in the PCT parent application. The PTO bibliographic data sheet of 12/26/08 also listed the correct priority, as did the PTO bibliographic data sheet of June 28, 2010 (provided with the Notice of Allowance). However, on August 12, 2010, a new PTO bibliographic data sheet reciting the incorrect priority from the first page of the specification was put into the record of the application.

Amendment under 37 CFR 1.312

Applicant hereby files an amendment under 37 CFR 1.312 correcting the information at paragraph [0001] of the specification to conform with the claimed priority.

Request for updated filing receipt

Applicant hereby requests an updated filing receipt reflecting the correct priority.

CONCLUSION

Please charge any fees or overpayments that may be due with this response to Deposit Account No. 17-0026. If a fee is required for an extension of time under 37 CFR 1.136 not accounted for above, such an extension is requested and the fee should also be charged to our Deposit Account.
